K7 Mobile Security for Android stops cyberthreats on Android devices with protection against malicious apps and web threats. Anti-theft protection enables retrieval of lost or stolen devices. The lean malware definition updates can be received through Wi-Fi, on mobile data, and while roaming for complete peace of mind wherever you go.

Powered By MAT: Multi-layered Artificial intelligence Technology (MAT) combines real-time monitoring across multiple layers spanning Pre-Download, Pre-Execution, and Post-execution protection with Artificial Intelligence models that self-learn, classify, and act autonomously to block malicious/inappropriate websites, malicious activities, and ransomware.

Malware Protection: K7's sophisticated protection secures your mobile devices against the latest Android cyberthreats.

Simple Installation and Usage: K7 Mobile Security for Android is designed to be easy for everyone to use, ensuring all users enjoy maximum protection against cyberattacks with minimum effort.

Anti-theft Technology

Real-time tracking enables you to track your lost or stolen smartphone/tablet in real-time to retrieve your device quickly. Remote data wiping is supported to protect data if the device cannot be retrieved.

Browse Worry-Free

K7 Mobile Security for Android includes built-in web-protection to keep you cybersafe against hackers, phishers, and malicious websites.

Backup and Restore Data

Easily take backups of your contacts and restore them. Your contacts can also be restored to other Android devices.

Retrieval Assist

Retrieve your lost Android device with a burglar alarm and other features.

About K7 Antivirus
