

K7 Mobile Security for iOS

Powered By MAT

Web and anti-theft protection for your iOS phones and tablets

Key Features

- **Anti-theft, Device Track, Burglar Alarm**
- **Location Monitoring**
- **Contacts Backup and Restore**
- **Web Protection**
- **Safe Surf**
- **Data Usage Monitor**
- **Social Network Privacy Scan**

K7 Mobile Security for iOS allows you to stay safe on your iPhone or iPad while surfing the internet. The Data Usage Monitor helps you track your mobile data consumption and the included anti-theft features help you retrieve your valuable device if it is lost or stolen.

Powered By MAT: Multi-layered Artificial intelligence Technology (MAT) combines real-time monitoring across multiple layers spanning Pre-Download, Pre-Execution, and Post-execution protection with Artificial Intelligence models that self-learn, classify, and act autonomously to block malicious/inappropriate websites, malicious activities, and ransomware.

Simple Installation and Use: K7 Mobile Security for iOS is designed to be easy to install and use, enabling cyber safe online activity on iOS devices for all users.

Real-time Anti-theft: Real-time tracking helps you locate your lost or stolen iOS device on a map for easy retrieval.

Worry-free Browsing: The inbuilt Safe Surf secure browser enables peace of mind when you are online with protection against identity theft, phishing scams, and fraudulent websites.

Easy Data Backup: Cloud-based backup enables you to backup your contacts and restore them to other iOS devices.

Monitor Usage of Memory and Storage: Device memory is monitored to find free, used, and active memory as well as free and used storage.

SNS Privacy: The Social Networking Site privacy check provides a detailed report of your Facebook account's privacy settings and areas of concern.
